

## Close To Home

D

Am I a million miles away?

D/C#

My mind's up in the clouds of grey,

Bm

Will I be on my feet some day,

G

We'll see

D

Because I don't hear what people say,

D/C#

I've never felt so far away,

Bm

but please don't let your patience fray,

G

With me

Bm

Bm/C#

G

Cos i'm making the most of all i've got

Bm

Bm/C#

A

Some things have stayed and some things have not

D

D/C#

Like the way your heart strings play the perfect tune,

Bm

The way you brighten up the room,

G

You make me feel close to home

D

D/C#

But when i'm away the music always sounds the same,

Bm

The pictures never fit the frame,

G

How I wish I was close to home,

D

I wish I was close to home

D

And i'd like to say this wasn't a struggle,

D/C#

But i'm losing hope, and bits of this puzzle

Bm G  
It's ripped away one puzzle piece at a time

D  
So i'm scrambling for some sense of this mess,  
D/C#  
Just a crutch to stand on so I can address,  
Bm G  
A starting point, to get things back in line

Bm Bm/C# G  
Cos i'm making the most of all i've got  
Bm Bm/C# A  
Some things have stayed and some things have not

D D/C#  
Like the way your heart strings play the perfect tune,  
Bm  
The way you brighten up the room,  
G  
You make me feel close to home  
D D/C#  
But when i'm away the music always sounds the same,  
Bm  
The pictures never fit the frame,  
G  
How I wish I was close to home,  
Bm, G, D, A (x2)  
I wish I was close to home

Bm  
just give me one more moment,  
F#m  
Keep your arms open  
G  
I know it seems it,  
A  
But i'm not broken

Bm  
I feel wheels turning,  
Bm/C#  
Don't close the curtain,

G

The flame's still burning,

Gm

Is it me that's fading out?

Like the way that I would always know your face,

The way i'd always found my place,

When I was close to home

But now the brightest rooms they never seem to glow,

The nurses tell me I should know,

That it's been years since i've been home,

I'll never be close to home.
